

The Campus Link Colloquium is an organized event between the UIC and the UCBM and will take place on 25th February 2010 at the Sant Cugat Campus.

The aim of this colloquium is to exchange knowledge and information regarding the different areas of research that is currently being carried out in both universities.

This event seeks to increase academic research collaboration between the two academic institutions, to promote mobility for students and professors, and to facilitate the development of joint research projects.
