

Results from the seventh survey completed in 2020 by graduates who completed their studies in the 2015-2016 academic year (2012-2013 academic year for Medicine only). Official AQU data

EMPLOYMENT RATES AMONG GRADUATES FROM THE 2015-2016 ACADEMIC YEAR (2012-2013 academic year for Medicine only) - Bachelor's degree programmes				
		Employed within three years		
Faculty	Programme - Bachelor's degrees with representative results	%Employed	%Unemployed	%Inactive
Faculty of Communication Sciences	Primary Education	93,1	3,4	3,5
Faculty of Medicine and Health Sciences	Nursing	92,6	3,7	3,7
Faculty of Dentistry	Dentistry	96,8	--	3,2
Faculty	Fields of knowledge with representative results *	%Employed	%Unemployed	%Inactive
---	Social and legal sciences (field), applicable to the Bachelor's Degrees in Law, Business Administration and Management, Journalism, Audiovisual Communication, Advertising and Public Relations	88,2	7,5	4,3
---	Education: teaching staff (detailed subfield): applicable to the Bachelor's Degree in Pre-Primary Education	90	6	4
---	Nursing and healthcare (extended subfield): applicable to the Bachelor's Degree in Physiotherapy	92,2	3,9	3,9

*NOTE ON RESULTS OF HUMANITIES, ARCHITECTURE AND MEDICINE: No data are available for any of these three degrees programmes. No responses have been recorded for the Bachelor's Degree in Humanities. The Bachelor's Degree in Medicine graduated its first cohort in the 2013-2014 academic year, so they were not object of the survey. Responses were obtained for the Bachelor's Degree in Architecture but the high sampling error does not allow them to be representative data nor can they be aggregated by field.
