

EE3 Sustainability Courses

UIC Barcelona offers an officially accredited master's programme whose title explicitly refers to sustainability: [Master's Degree in International Cooperation: Sustainable Emergency Architecture](#) (EE3.3). Public evidence: [official programme page \(UIC Barcelona\)](#).

The programme integrates **climate literacy**, **environmental sustainability**, and **climate change resilience** through a dedicated curriculum, evidencing the availability of climate/sustainability education (EE3.1).

The master's programme carries **60 officially recognised ECTS credits**, with the ECTS distribution detailed by module/subject in the **official study plan** published in the [Spanish Official Gazette \(BOE-A-2024-20753\)](#) (EE3.2). Public evidence: [BOE-A-2024-20753 \(PDF\)](#).

As supporting public documentation, the [programme brochure](#) and the **official curriculum/study plan webpage (Academic year 2025–2026)** publicly provide the programme structure and the detailed list of modules/subjects, including the corresponding ECTS credits. Public evidence: **Programme brochure (PDF)** and **Curriculum / Study plan and subjects 2025–2026 (UIC Barcelona)**: <https://www.uic.es/en/estudis-uic/architecture/master-international-cooperation-sustainable-emergency-architecture>
