

# INTENSIVE COURSE FOR GENERAL CLINICAL ENDODONTICS

<b>Campus</b> UIC Barcelona, Campus Sant Cugat	<b>Calendar and schedule</b> From May 11th to 15th, 2026	<b>Language</b> English	<b>Information and admission</b> Marta Utset contact number & WhatsApp: +34 930 192 304 infodonto@uic.es
<b>Tuition fee</b> € 3.010	From Monday to Thursday from 8 a.m. to 7 p.m., Friday from 8 a.m. to 2 p.m.	<b>Mode of delivery</b> On-site	
		<b>Credits</b> 5	

In recent years, the field of endodontics has evolved dramatically and knowledge and updates in this area are essential to performing high quality dentistry.

This programme is intended for professionals whether they be general dentists or specialists, who want to introduce themselves or increase their knowledge in the field of endodontics.

The advantage of this programme is that it combines the most advanced and innovative theory sessions with in vitro practical sessions with the latest generation materials and techniques.

The student learns how to perform a quality endodontic treatment step-by-step.

The laboratory where the practical sessions are conducted has several optical microscopes so that the student can perform the different treatments with high magnification.

The programme offers a broad overview of endodontics, where basic concepts of pulpo-periapical pathology, instrumentation and obturation are reviewed. The Intensive Course for General Clinical Endodontics aims to introduce the student to endodontic treatments of high quality.

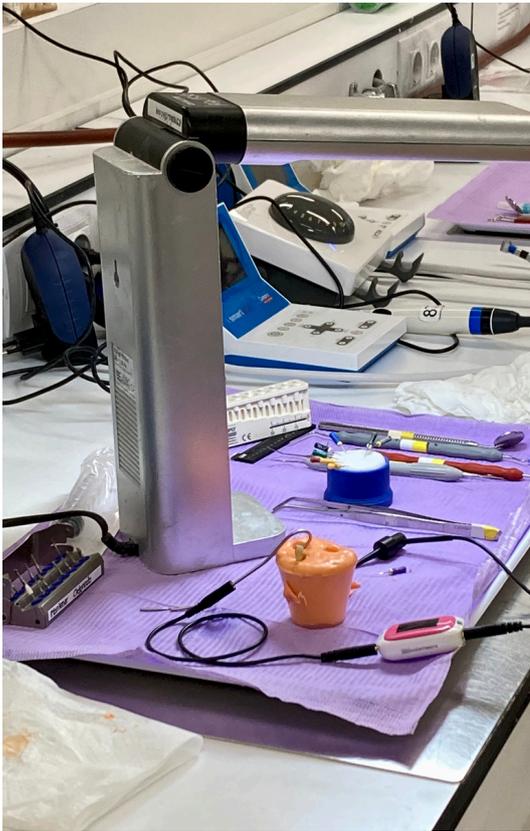

The objective is that the student acquire practical habits in rotary and reciprocating instrumentation, as well as in thermoplastic sealing.

The **Faculty of Dentistry at UIC Barcelona** is the first and only Spanish university accredited by the **American Dental Association** as provider for Continuing Education.

**ADA C.E.R.P.**® | Continuing Education Recognition Program

Universitat Internacional de Catalunya, Fundació Privada is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at CCEPR. ada.org.

## TARGET

The Intensive Course for General Clinical Endodontics programme is aimed at all those professionals (stomatologists or dentists) who want to update and expand their knowledge in the field of endodontics but do not have the time and/or means to take part in a longer programme.

## MODE OF DELIVERY

in-person, this programme combines the most advanced and innovative theory sessions with in vitro practical sessions with the latest generation materials and techniques.

## ASSESSMENT METHOD

An online self-assessment test will be carried out at the end of the course so that students can assess the achievement of their personal goals and their knowledge of the content of the course.

## Responsible Department

Endodontics  
Faculty of Dentistry

## Course Coordinators

Dr Fernando Durán-Sindreu  
Dr. Gonzalo Gómez

## Instructors

Dr Fernando Durán-Sindreu  
Dr Francesc Abella  
Dr Gonzalo Gómez  
Dr Violeta Visús  
Dr José Antonio González  
Dr Marc García  
Dr Jordi Tomás  
Dr Gustavo Rodriguez  
Dr Gonzalo Olivieri

### Objectives of the course

- Conduct a good diagnosis and treatment plan
- Perform a correct isolation of the operating field
- Attain a good canal opening
- Perform the correct biomechanical preparation
- Achieve the correct three-dimensional obturation

### Competences to be acquired by the student

- The Intensive Course for General Clinical Endodontics programme provides an update of knowledge, techniques and protocols of action following the latest trends in the specialty.
- It is basically a practical course that aims to prepare the student to begin working in modern endodontics with the greatest confidence possible. To do this, the course offers a wide range of materials and techniques that the student can put into practice in their clinic.
- Once the programme is finished, the student will be capable of performing most endodontic treatments.

## COURSE PROGRAMME:

The Intensive Course for General Clinical Endodontics is essentially a practical programme. However, theory seminars are provided as an introduction to the practical classes.

The theory and practical programme is as follows:

- Canal opening (with the help of magnification)
- Isolation of the operating field
- Working length and apex locators
- Radiology in Endodontics - Conical Beam Computed Tomography (CBCT in Endodontics)
- Canal conformation (rotary and reciprocating systems)
- Root canal obturation (different thermoplastic techniques)
- Root canal irrigation
- Pulp and periapical pathology
- Diagnosis and treatment plan
- Discussion of clinical cases

**STUDY IN BARCELONA**

Experience the most important formative stage of your life in one of the leading European cities. Barcelona is known for its cultural and economic prominence, providing various professional opportunities.

**CAMPUSES OF UIC BARCELONA**

The teaching activities of the Faculty of Dentistry are conducted at the Sant Cugat campus, encompassing over 24,000 m2 . Our facilities are equipped with the latest state-of-the-art equipment, supporting both theory and practical classes.

**THE PURSUIT OF EXCELLENCE IS IN OUR DNA, AND EFFORT AND PERSERVERANCE ARE OUR DRIVERS FOR CHANGE**
